THE WEEKLY COLONIST—Postage free to any part of the Dominion.....$3
Six Months.....$2
Three Months.....$1

ISSUED EVERY TUESDAY MORNING IN TIME FOR THE MAILS

POPULARITY.

Why they are popular. reason: that National Pills are so universally popular is because they are certain in their action, mild and painless in their operation, and never leave the bowels constipated. They are sugar-coated, and contain no mineral poison. (35)

A REMARKABLE FACT.

It is a remarkable fact that W. A. Edgers, of Frankville, who was so far gone with liver and kidney complaint that his life was despaired of, was cured with four bottles of Burdock Blood Bitters. At one time he lay a fortnight without an operation of the bowels. (36)

If you are unable to sleep nights and, though physically tired, are wakeful and your business is uppermost in your mind, and you cannot for a while rid yourself of its cares and perplexities, take Phosphatine along with your meals three times a day, and it will produce such a change in your system that you will enjoy a refreshing sleep every night. For sale by all druggists; price, $1. dw

A PRAISEWORTHY OBJECT.

"None name it but to praise." This is true of that unsurpassed remedy, "Hagyard's Yellow Oil." It cures pain and inflammation, whether from sprain, bruise, or frost-bite, lame back, rheumatism, neuralgia, sore throat, croup, deafness, and for internal and external use. (31)

The sickly girl and delicate young woman need Dr. Austin's Phosphatine. When the countenance is pale the blood courses sluggishly, eruptions on the face appear, together with all the other signs of either temporary or constitutional debility. No remedy will so quickly restore color to the cheeks, strength to the muscles, energy to the limbs, bring back the appetite and make a healthy woman, as Phosphatine, which is not a medicine, but a Food. For sale by all druggists. dw

DR. COOPER'S VEGETABLE LIVER-WORT AND KIDNEY CURE

Has no equal as a safe remedy for all diseases of the liver, kidneys and urinary organs. Over 250,000 bottles sold during 1882. Price $1 a bottle. MOORE & Co., sole agents. dw

Pleasant to the taste, and soothing to the kidneys, is the universal expression of all who have used Dr. Van Buren's Kidney Cure. A few doses relieve the pain, a few bottles complete the cure, and you are saved. All druggists keep it *

THIS IS RELIABLE.

R. N. Wheeler, Merchant, of Everton was cured of a severe attack of inflammation of the lungs by Hagyard's Pectoral Balsam. This great throat and lung healer cures weak lungs, coughs, hoarseness, bronchitis, and all Pectoral complaints.

BIG DINNERS.

Over indulgence in eating and drinking is generally followed by headaches, dullness, languor and other disagreeable sensations. Anyone finding himself in that unfortunate state will obtain relief most readily by taking Syrup of Figs.—Langley & Co., Agents for Victoria. 16

Of all the ills that flesh is heir to kidney disease is the most distressing. To sufferers, we can only say, take Dr. Van Buren's Kidney Cure at once, and thus obtain a relief you cannot find elsewhere. All druggists have it dw

A. B. GRAY & CO.

OFFER FOR SALE IN PRIME CONDITION

TENNENT'S

PALE ALE & STOUT

THESE HAVE BEEN AWARDED HIGHEST Honors at recent Exhibitions.

GOLD MEDAL AT MELBOURNE, 1880.
GOLD MEDAL AT NEW ZEALAND, 1882.
GOLD MEDAL AT BORDEAUX, 1882.

J. & R. Tennent deem it of the utmost importance at this time to direct *special* attention to the fact that they continue to brew only from the Best of Malt and Hops.

Owing to recent changes in the Excise Laws, Beer and Stout can now legally be brewed from other materials, which, in consequence of cheapness, are being largely taken advantage of, but of which Messrs. Tennent entirely disapprove, and accordingly they continue to use only malt made from the finest Scotch and English Barleys.

The purchasers of the Red T Brand have a guarantee of its being a "standard" malt liquor, and for which it has been well known for over half a century in all the foreign markets. This standard of excellence it still maintains as has been recently attested at the Exhibitions in Melbourne, 1880; New Zealand, 1881; Bordeaux, 1882.

N.B. There have been more piracies of the Red T brand than of any other, which attests its superiority. These piracies have been suppressed in many markets and openly interdicted by law in Germany in 1864 and again in 1877, where the practice was most notorious. A. B. GRAY & CO.,

[L. S.] CLEMENT F. CORNWALL.

CANADA.

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To Our faithful the Members elected to serve in the Legislative Assembly of Our said Province, of British Columbia, and summoned and called to a meeting of the Legislature or Parliament of Our said Province, at Our City of Victoria, on Thursday, the Twelfth day of July Instant, to have been commenced and held, and every of you GREETING.

A PROCLAMATION.

ALEX. E. B. DAVIE, *Attorney-General.* } WHEREAS THE MEETing of the Legislature or Parliament of the Province of British Columbia stands called for Thursday, the Twelfth day of July instant, at which time, at Our City of Victoria, you were held and constrained to appear.

NOW KNOW YE that, for divers causes and considerations, and taking into consideration the ease and convenience of Our loving subjects, We have thought fit, by and with the advice of Our Executive Council of the Province of British Columbia, to relieve you and each of you, of your attendance at the time aforesaid; hereby convoking, and by these presents enjoining you, and each of you, that on THURSDAY, the THIRTEENTH day of the month of SEPTEMBER next, you meet Us in Our said Legislature or Parliament of Our said Province, at Our City of Victoria, and therein do as may seem necessary. Herein fail not.

IN TESTIMONY WHEREOF, We have caused these our Letters to be made Patent, and the Great Seal of British Columbia to be hereunto affixed WITNESS, the Honorable CLEMENT F. CORNWALL, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this Tenth day of July, in the year of Our Lord, one thousand eight hundred and eighty-three, and in the forty-seventh year of Our Reign.

By Command.

WEDNESDAY MORNING, AUG. 8TH, 1883.

G. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

JEW AND GENTILE.

If the Jew, in the height of his ancient power and national prosperity, as the special ob'ect of solicitude of even Almighty power itself, despised the Gentile and to a certain extent persecuted him, it must be admitted that the latter has never forgotten to return the compliment with usurious interest through long centuries up to the present day. From various causes a feeling of the old antipathy to the Jews as a race has of late years made itself apparent in some parts of Europe, but the secret perhaps lies in the fact that the Jew took advantage of bankrupt empires and held the people so closely that their bonds almost became, like Shylock's, a matter of flesh and blood. The late trial of the Hungarian Jews on a charge of murdering a girl named Esther at their passover, which has occupied such a large share of public attention, is a curious example of how justice is administered in some parts of Europe. The accused, Amsd Vogel, was examined on July 6th before the higher court at Nyireghyhaza and pleaded "not guilty." Witness described his examination and confrontation with Smilovics. The latter made a lying statement, accusing him of the crime now charged against him. When he denied it the examining judge boxed his ears. This happened at Esslar. When the judge went out of the room, Karncassy, the interpreter, told him if he would confess he would be free in a few weeks. Next day he was again examined and confronted by Smilovics. The examining judge made him drink a great quantity of water and struck him again. In the evening he was taken to Lock, and examined in a garden by the examining judge, Bary, the commissary of police, and Karancsay. When asked again to confess, witness replied that he knew nothing, and Bary boxed his ears and left the room, witness remaining with Karancsay and the commissary. Being asked again, and giving the same reply, the comissary told him that he had authority from the court to beat him until he told the truth. Witness replied that they might beat him, but that he knew nothing. The commissary then told him to look into his eye, and when he raised his head, struck him on the jaw Then the Commissary had a large quantity of water brought in and made him drink it. After a pause he was made to drink some glasses more, and to swallow two glasses of spirits. His hands were then tiedback; Karancsay took hold of one, and the commissary of the other, and pulled. In an adjoining little room they stripped him entirely, made him sit down on chopped straw, and threatened to hang him up by the feet. Still he admitted nothing. Next day they took him with the others to Nyireghyhaza, and although he was ill, he was made to keep up with the mounted policemen. He clung to the car which carried the others, and at last fell to the ground. They offered him spirits, but he only took some water, and was then allowed to get on the car for a time. In Nyireghyhaza he was shut up for 12 days in solitary confinment. He was then again brought up, and having vowed that he was innocent, was confronted with Smilovics. Witness denied the charge, and Smilovics, who could not tell the day when they met according to his deposition, in Kereesen, was led out by the examining judge. When brought back he could relate his lying stories far better Witness was then again sent back to solitary confinement, but could not be made to confess. How absurd an English police court appears after this. There the great anxiety of the judge is to prevent the prisoner from even voluntarily committing himself and spoiling a good case for the lawyers. Altogether, justice in Hungary seems to be administered after the manner of the dark ages, and whatever objects were to be gained by the conviction of the accused, the means used to attain that end were so simple, energetic and persevering as fairly to put our own courts to the blush. The object of the accusation seems to have been to excite the popular feeling to acts of violence against the Jews such as have occurred in other places. The story, however, had such a heathenish cast about it that the august court was forced to rebuke the popular feeling by dismissing the case.

What Some Quesnelle People Say.

TO THE EDITOR;—That Mr. St. Laurent is collecting names to form a joint stock company to prospect Slough creek and has got a good deal of stock taken.

That if the company be organized and should import an artesian boring device the said undertaking may be accomplished and that quartz may then also have a good chance of being prospected.

That as the government have for the year appropriated $4,500 to the aid of prospecting parties the Big Bonanza Mining Company on Lightning creek are sadly in need of help, if any party are, for having expended forty-five thousand dollars on their claim. When the dam in the creek washed off about a year ago they had two or three days' previous to the accident got on to lead gold pieces; but having utterly exhausted their funds the works are stopped. Thus the company were the guides to a treasure trove. Without help there it may lie for years if not forever. The Bonanza company have a shaft of 100 feet with a 12 inch pump fully capable of keeping the claim dry as the surface is clay. Should not such an enterprise as this have government help?

QUESNELLE FREE MINER.

Quesnelle, June 30th, 1883.

THE MOUNTED POLICE FORCE

In a Complete State of Demoralization

CHICAGO, July 30. — Private advices from a trustworthy source, received at Toronto, report the Canadian mounted police force to be in a complete state of demoralization. The men are loudly complaining of the tyranny of the officers, commissioned and non-commissioned; in fact, one of the sergeants was recently reduced to the ranks for his abusive conduct to the men. A discharged trooper, who passed through this city the other day, says that the men are treated like dogs, that the food served out is unfit for use, and that nothing short of an official investigation will remedy the existing state of affairs. The members are reported to be covered with vermin and the quarters are in a filthy state.

LADIES who suffer periodically from pains in the back will find immediate relief in a few doses of Dr. Van Buren's Kidney Cure. It was never known to fail. Your druggist keeps it. dw

JUDGE LYNCH.

A Walla Walla Mob Hang a Murderer.

WALLA WALLA, Aug. 5.—McPherson, one of the murderers of E. H. Cummins at New York bar, was hung by the vigilantes at Dayton last night at 10:30. Upon the receipt of the news at Dayton that McPherson had been granted a new trial, and of Governor Newell's reprieve, a feeling commenced growing upon the people that something should be done to defeat McPherson's new lease of life. About 9:30 last night crowds, consisting of from four to ten persons, all well armed with rifles, pistols and shotguns, began assembling in the vacant grounds close by the jail. At 10:30 the vigilantes were fully organized, when they marched to the jail yard through the door which they found unlocked. Entering the yard they immediately went to the jail door and demanded admittance of the guards, which was peremptorily refused. At the same time the guard ordered the mob to desist. Finding the vigilantes were determined in their purpose, the guards, six in number, drew their pistols and

FIRED SIX SHOTS,

but none of the assaulting parties were injured. With the aid of crowbars the jail door was forced open. In the meantime the guards, seeing they were to be overpowered, hid their keys under the stairway. On effecting an entrance into the prison, the vigilantes surrounded the guards, and ordered them to throw up their hands. McPherson's cell was then pried open with bars, when the murderer was brought face to face with his executioners. McPherson, though visibly affected, gave no outward sign of fear. Two of the vigilantes brought files to bear on McPherson's shackles, and in an incredibly short space of time they were cut loose and McPherson was in the hands of the mob.

While all this was going on inside in the jail the jail yard was also carefully guarded by

SIXTY FIVE VIGILANTES, WELL ARMED,

who paraded their beats in regular time, as punctually as if the proceedings had been performed by regular troops. A few feet away from the jail yard a detail of sentries were placed to keep back spectators. When McPherson was marched out of the jail he was clad in a checked shirt and overalls. His feet were bare, his hands were securely fastened behind, and in that way he was marched up on the scaffold prepared for Snodderly's execution. McPherson went up the scaffold steps without apparent effort. Escape was made impossible by a row of sentries on each side of him. As McPherson was taken from his cell the leader of the vigilantes said, turning to Snodderley and Owenby, "Fellows, your turn has not come yet; one of you will be hung next Tuesday and the other will have to be worked on yet." When on the scaffold, McPherson, turning to his executioners, said: "Fellows, I am an innocent man and God knows it,

AND I DIE GAME."

He was then marched under the cross-beam and a half inch rope was brought to the executioner. After placing the noose around McPherson's neck the rope was placed over the cross-beam and the crowd below began pulling until McPherson was dangling about two feet over the scaffold platform. Those stationed a short distance from the scaffold platform could hardly discern a movement of the body outside of the swinging motion given it by the twisting and untwisting of the rope. A lantern was hung close to the body, bringing it out in bold relief with the dark mass of masked men on and about the death dealing structure. After McPherson had hung long enough to make death a pretty sure thing, the leader addressing all hands, said: "Fellow citizens, you can now do as you please."

Mrs. McPherson up to a late hour this morning knew nothing of the hanging. On Saturday night she visited her husband in his cell and remained with him until 9 o'clock. The unfortunate woman seemed to have gained considerable spirit by the reprieve and the new trial granted her husband.

Eastern States.

CHICAGO, Aug. 4.—Inquiries among leading Irish agitators in this city fail to confirm the story telegraphed from Washington to the effect that O'Donnell, the slayer of Carey, has ever been a resident of this city. They recognize O'Donnell as a man who was engaged in an attempt to blow up the Mansion house. He visited New York city two years ago and was intimate with O'Donovan Rossa, but never journeyed west of that city. The statement that his wife and children resided here is not credited.

CHICAGO, Aug. 5.—Foy You made application in the circuit court yesterday for second naturalization papers. His first papers were taken out in Winnebago county, dated July 16, 1883. Foy You tried hard to persuade the clerk that the date was wrong, owing to a clerical mistake, and that he had had papers 2 years. The clerk refused the papers and the Chinaman left in disgust.

FAYETTEVILLE, Ark., Aug. 4.—This afternoon Miss Saros Burks, aged 16 years, went to the barn, got on the roof, placed one end of the rope about her neck and the other end to a pole and jumped down. She was dead when found. The cause of the suicide was the refusal of a young man to marry her who had ruined her.

CHICAGO, Aug. 4.—Telegraph operators on the Wabash railroad system have given notice of a demand for increase of pay of $10 per month, extra pay for Sunday work, and not be required to handle Western Union business during the pending controversy with the brotherhood operators. The company will be given until Monday to return an answer.

PITTSBURG, Aug. 5.—It is reported here to-night that all railroad operators belonging to the telegraph brotherhood will be ordered out at noon to-morrow.

NEW YORK, Aug. 5.—*Times*: The five Chinese members of the May family, who assaulted and nearly killed Lung Pay, a rival laundryman, because he reduced the prices of washing and ironing below the standard rates, were several weeks ago sentenced to pay a fine of $500 each. Not being able to pay the money Judge Woodruff sentenced them to one year in the State prison, despite the fact that a strong and influential petition was presented for clemency. One of the arguments presented was the fact they would lose their queus if sent to the State prison which would involve national disgrace and be cruel to bear, for they would never dare go back to their own country minus their pig tails.

DR. CHAN TAN TONG, from Canton, skillfully and confidentially treats all diseases of men, women and children. Office Bow Gee Tong, Government street. Dr. Chan Lan Tong practiced at San Francisco for ten years, and guarantees a cure as he uses hot medicines. *

EUROPE.

LONDON, Aug. 5.—Jewish residents of Ekatarinoslay, Russia, were attacked by a mob on the 22d inst., and soldiers were called out to disperse the rioters, ten of whom were killed and thirteen wounded. The trouble was caused by a Jew insulting a peasant woman. The town council of Ekatarinoslay resolved to give the Jews 5,000 roubles to compensate them for their losses, and to provide shelter for those who were rendered homeless.

LONDON, Aug. 4.—There is great excitement in Hungary over the result of the trial of Jews accused of murdering Esther Solymos at Pestburg. A mob of anti-Semitics gathered and became so hostile in their demonstrations against the Jews that the authorities were compelled to order out the military to disperse them.

LONDON, Aug. 4.—The Paris correspondents of London papers do not consider the plot to restore a monarchy in France of a serious character. Two coachmen who were arrested had papers in their possession which indicated the existence of a secret committee of action. The *Standard* says the committee consisted of servants and small tradesmen.

LIVERPOOL, August 4.—The new Red Star line steamer Westerland was launched successfully here to-day. She is the largest vessel ever built on the Mersey. She is made of steel, 6000 tons burden, and is 450 feet long, forty-seven feet wide, and has accommodations for 1350 passengers.

PARIS, Aug. 4.—*Le Temps*, referring to the plot to restore a monarchy in France, says that the official police report declares that a political organization possessed of various means of acting exists in France, apparently patronized by legitimist chiefs. The public prosecutor has been instructed to conduct the trial of arrested conspirators. Several legitimists will be examined.

PARIS, August 4.—Challemel Lacour, minister of foreign affairs, had an interview to-day with Marquis Tseng, Chinese ambassador, and it is reported the former demanded the withdrawal of Chinese troops from the Tonquin frontier.

PARIS, Aug. 5.—Immediately after the departure of the French the Annamites reoccupied the positions which the French had taken in the sortie from Mamdish.

PARIS, Aug. 5.—Count Foucher de Coral has been appointed French ambassador to Vienna.

PARIS, Aug. 4.—Pierre Auguste Cota, French painter, is dead

LONDON, Aug. 5.—The murder of Carey continues to be the sole subject of conversation in London.

DUBLIN, Aug. 5.—Carey himself chose to go to Natal. He would not go to Australia, because he knew many Fenians, fearing arrest, had escaped to that country. It is an open secret that Earl Spencer, lord lieutenant of Ireland, is much annoyed by the murder of Carey and the prevention of Kavanagh and other informers at Melbourne has caused some angry correspondence between Earl Spencer and prominent officials on the subject. The *Observer* says it is rumored that Kavanagh has been murdered.

LISBON, Aug. 5.—It is reported that a military rising has taken place in the Spanish province of Badajos, on the Portugese frontier and that the regular authorities have been arrested. The telegraph and railway lines between Badajos and Portugal are interrupted.

LISBON, Aug. 5—Midnight.—According to the latest report the rising, which was in republican interest, was speedily suppressed by the troops.

Reports relative to the movement came from Portugese railway employes stationed on the frontier, who say that a rising occurred at the place at one o'clock Sunday morning. The captain general of the province is on a furlough at a watering place

VIENNA, Aug. 4.—A prominent journal announces that an interview is about to take place between Count Kalkony Astrea, Hungarian minister of foreign affairs, and Prince Bismarck, for the purpose of deciding as to the prolongation of the treaty of alliance between Germany and Austria Hungary.

Australia.

MELBURNE, Aug. 5.—Kavanagh and the other informers are still on board the steamer Parthan. The governments of New South Wales and Victoria are negotiating with a view to settling the difficulty.

TELEGRAPHIC.

AFTER THE 1st OF AUGUST THE COLONIST WILL BE IN DAILY RECEIPT OF TELEGRAPHIC DISPATCHES FROM ALL PARTS OF THE WORLD. INTENDING SUBSCRIBERS MAY LEAVE THEIR NAMES AT THE PUBLICATION OFFICE.

SINGULAR ACCIDENT TO THE R. P. RITHET.

A Snag Comes Through the Foor of a Lady's Stateroom.

As the steamer R. P. Rithet was on her way to New Westminster on Sunday morning, about 2 o'clock, the passengers were suddenly startled by the sound of something crashing through the upper works on the starboard side, astern. The boat was then passing up the Fraser on the right hand side of the river, just below Staves river. The stern of the boat was swinging round at the time and came against a large snag or trunk of a tree which rose in a slanting direction from the bed of the river, a considerable distance above the surface of the water, and pierced the steamers upper works on the starboard side just at the outer corner of the wash room on the main deck near the engines aft. The engineer, Mr. Link, on the first crash immediately reversed the engines, but the steamer having way on her, the snag moved upwards in a slanting direction and tore through the centre of the floor of the last stateroom, but one, occupied by Miss Butler of New Westminster, a young lady of 15 a step daughter of Mr. C. Wallace, who was lying in the lower bunk, which was immediately raised up by the obtruding snag. Though she ran some risk of being caught between the lower and upper bunks, she managed to escape from the room uninjured, and appeared to be rather amused at the incident though she had a narrow escape. The snag which was about a foot in diameter at the top, owing to the engines being promptly reversed and the stern of the boat altering its position, immediately backed out again and the whole affair only occupied a few minutes. No damage was done beyond tearing away some 15 feet of the thin boards of the upper works on the main deck, piercing the floor of the stateroom, breaking a looking glass and slightly displacing an ornamental panel. This accident would seem to be a very good argument for the immediate placing of the snag boat promised by the Dominion government on the river, as the consequences might have been very serious.

Cariboo Again Shedding its Golden Rays.

PROMISING QUARTZ LEDGES.

CACHE CREEK, July 30.

I have sent some quartz specimens to Mr. F. S. Barnard taken from the Enterprise tunnel, lately located by J. Perkins as the previous record had lapsed. Fifteen hundred feet is the extent of the ledge, and the tunnel has been run in four hundred feet. Men are now working a shaft about thirty feet ahead of the tunnel, from which came the specimens I have forwarded, also sent down the gold which fell from the quartz as I was breaking it. I left Barkerville eight days ago. Mr. Monatt told me that twice the amount of gold had passed through the assay office this year as compared with last. Several claims are paying well. The Chinamen also on Antler creek are in excellent spirits. I am certain that if the prospects that are on Burns mountain were in Mexico or Arizona they would be thought very good and be worked with a will. A company with $10,000 capital has been formed to prospect Slue creek and propose to pay, if required, 10 per cent. per month. They will probably have a boring machine to enable the true channel to be found. The late rains that fell have greatly improved the crops at Quesnelle, Alexandria, Soda creek and Williams Lake. W. P. TROUSCE.

Castello's Circus.

An afternoon performance and a final performance in the evening was given by this circus company at the corner of View and Blanchard streets yesterday. Though several new feats were introduced the programme was practically the same, but the vim with which it was conducted made it perfectly acceptable. The grand entry and evolutions of the horses and riders were interesting to witness, as was also the performing horse "Senator," who shone in his line, as much as all bearing the same title should in theirs. The contortionists tied themselves in knots with the same apparent ease, and the acrobats bounded as high. The show is a very creditable one and deserves to meet with the success that has attended it here.

Passengers for Victoria.

SAN FRANCISCO, Aug. 5.—Passengers per steamer Mexico, sailed August 5th, at 10 a.m.: For Victoria—Rev. F. Hall, wife and child, G Cheeney, Miss S Butting, G B Clark, R C Clark, Miss I Cameron, T J Pestfield, C W Braddock, H Knarston and wife, Mrs Stephens, Mrs Rose D Matthewson, Mr Broderick, Mrs Stilles and boy, J Desclete, F N Stephen, A Gregg and family, R Farrell, A Requa, D Oppenheimer, Mary Chapman, Emily Cornish, A Booth.

FROM NEW WESTMINSTER.—Yesterday morning about 9:30 the steamer R. P. Rithet arrived from New Westminster with passengers and freight. Among the latter were 900 cases of salmon from the Delta cannery. The run of fish is reported improving.

What Some People Say.

That foreign fire insurance companies decline to take risks on wooden buildings in Portland.

That Oscar Wilde is wandering about London dressed in the style of George IV.

That before his appointment to West Point General Sheridan drove a watering cart.

That Queen Victoria is forty eight inches (!) high. Prince Albert was fifteen inches taller.

That Tom Thumb's full name was Charles Sherwood Stratton.

That Gladstone is too big a man to carry his political enmities into social life. It is said that notwithstanding Salisbury's bitter and wholesale criticisms, Gladstone takes special pains to pay his respects to Salisbury upon every reception occasion.

That Cardinal Manning is seventy-three years old, and became a Roman Catholic when he was forty-eight years old.

That Lord Dufferin thinks that before the close of the next century Canada will have forty million people.

That the old cemeteries of London are gradually being converted into public grounds, and many a resting place for the dead has now become a place of recreation for the living.

That the Right Honorable Lord Mayor of Dublin, Charles Dawson, M. P., is a baker by trade. His wagons go through the street every day, and serve bread to the Mansion House regularly.

That there are four generations, each well represented, in the reigning families of the German and British Empires. The little Prince born the other day to a young son of the Crown Prince is a great grandson of Queen Victoria as well as of Emperor William.

That the first strawberries sold in Paris are habitually known as "English," and it is said that they are all descendants from the slip which the Princess Victoria sent to Louis Philippe in return for some Mexican paulonias which that monarch had courteously bestowed upon her.

That the revenue of the British colony of Victoria for the past twelve months was £5,600,000.

That the French campaign in Tonquin will begin in September.

That M. de Lesseps is confident that the Panama Canal will be finished five years hence.

That times have changed since Pope wrote: "Then Worth made the man." Now he only makes women's costumes.

That "By discovering a new dish," says a French author, "a man confers more benefit upon the human race than by discovering a new star."

That a dude called upon the seeress yesterday and asked where he could purchase the best clothing. The room immediately became dark, and on the wall, in letters of fire appeared the motto, "I X L Store. 3t

That Boston has 304 electric lights which cost sixty-five cents apiece each night, and they displace a thousand gas lights, which cost less than six cents each. That is, while each electric lamp costs as much as ten gas lamps, it takes the place of only three.

That the most fashionable ladies of Wheeling, W. Va., hire their diamonds.

That in India there are about 150,000 Europeans and some 200,000,000 natives.

That statistics show that the growth of timber in Kansas is yearly increasing beyond the consumption. It ought to be so in British Columbia and other Pacific States and Territories.

That since March 1st, to date, Chicago packers have slaughtered and salted 990,000 hogs, against 1,150,000 the corresponding period last year.

That Melbourne, Australia, sent a cargo of 325 bales of fine hops to England. New Zealand hops are found to be almost equal to the best Kentish.

That the St. Louis livery stable keepers are to publish a black list of men whose custom they don't want—men who forget to pay their bills and who break carriages and abuse horses.

That the deepest sea sounding ever made was in the Pacific ocean in 1874, near the entrance to Behring's sea. The depth was 4,655 fathoms, and the cast was made from the United States ship Tuscarora. The shallowest water in the middle of the Atlantic, 731 fathoms, shows the existence of submarine mountains 10,556 feet high.

That a lawyer, and a colonel at that, has been tarred and feathered in New Mexico.

That a man named John Nolan has fatally wounded another man named Frank Hardy with a knife at Seattle.

That at the Richmond Cannery, Fraser river, the other day, a salmon that weighed 75 pounds and measured 23 inches round the girth, was caught and canned. He filled a case and a half.

That a gentleman of this city recommends the introduction of German carp into the Beaver lake dam for the purification of the water. The carp has an enormous appetite for vegetables and when he ceases to vegetate is very good eating himself.

That the public schools will not re open until Monday, the 13th instant, on account of alterations not having been completed.

That the Blue Ribbon War Song by Mr. Francis, is for sale at Messrs. M. W. Watt & Co's, Government street.

That copies of the tariff changes may be had at *The Colonist* office and the bookstores to-day.

Marine.

The steamship Dakota will sail from the Victoria wharf, outer harbor, to-day at noon.

The barque Vanguard has taken in many cases of her cargo of salmon for England. One of her iron plates, which was defective is being replaced by a new one.

The barque Chasca was towed in by the steamer Pilot from Royal Roads to Janions wharf. She will commence discharging her cargo to day.

DEPARTURE OF THE CIRCUS.—The str. Enterprise, at 2 o'clock this morning, sailed for Nanaimo and New Westminster with Dan Castello's circus company. The boat has been thoroughly cleaned from stem to stern under the superintendence of the experienced steward, Mr. Copeland, and is in excellent order, and the interior shines as if it had just been repainted, though it is about seven years since her cabins were touched with the painter's brush.

HORSE STEALING.—Yesterday a man was arrested by Supt. Todd on a charge of stealing two brown horses, the property of Edward M. Johnson. He was admitted to bail.

BASE BALL.—The Amity base ball club, of Victoria, has accepted the challenge of the Alpha club, of New Westminster, to play them at Beacon Hill in about two weeks' hence.

Supreme Court.

[Before Mr. Justice Gray.]

MONDAY, August 6.

Jones, Morgan, and Fellows & Prior vs Carpenter—Mr. T. Davie and Mr. Eberts, who appeared on behalf of the respective plaintiffs, who had recovered judgment, amounting in the aggregate to about $6000, applied for the appointment of a receiver of the defendant's estate, and an injunction against a sale of the property under a number of County Court executions. Counsel produced the affidavit of James Abrams of Nanaimo, general trader, showing that Carpenter had absconded and that his assets consisted of the barque Nanaimo, valued at $30,000 or thereabouts, (subject to a mortgage of $14,000), a logging camp, saw-mill, store premises at Nanaimo and Baynes Sound, which, as a going concern, deponent valued at $15,000, but which at forced sale would probably not realize $5000, over and above a mortgage of $3000, which existed on the mill; that creditors of sums less than $500 and aggregating upwards of $8000, had recently recovered County Court judgments under summonses issued at various periods, ranging from 24 to 48 hours' before judgment, and that executions had been issued on such judgments, which, if proceeded with, would sacrifice the property and leave nothing for the remainder of the creditors, who, if the estate were properly managed, would realize a fair proportion of their debts.

Counsel contended that there was fair ground for arguing that all the county court judgments were invalid, the statute authorizing short service only in cases where the debtor was about to abscond and not in cases where he had already absconded, and consequently could not be served, and that the act had never intended a race among creditors such as had been attempted here. Reference was made to a subsection of the judicature act which authorizes the appointment of a receiver and the grant of an injunction wherever it appears just and convenient.

His lordship considered it just that a receiver should be appointed under the circumstances stated and the executions stayed. The object of the law was to apply a man's estate towards payment of his just debts, whereas in the cases of the judgments complained of the debts might not be due at all, no opportunity having been afforded the only party having knowledge of his own concern, the defendant himself, of disputing them, and thus the law would become a means of applying a man's estate in payment of his unjust debts, which was never intended. At all events, should subsequent facts and argument show that he was wrong in his present impressions or that the receiver should not be appointed, no harm could be done to the creditors claiming priority under the judgments, as the property would remain in *status quo*. English authorities under the judicature act showed that the court had jurisdiction to make such an order.

His lordship then appointed Mr. Prevost receiver of all the estate, directing the sheriffs to account to him for all goods and moneys in their hands, and restraining the sale of any portion of the estate until further order, excepting such portion as might be perishable, and reserving leave to all parties affected to apply to the court as they might be advised.

(Before Hon. Justice Walkem.)

TUESDAY, Aug. 7.

Re Carpenter's estate—Mr. Mills applied under the act of last session (No. 8) on behalf of thirty-three of the workmen for an order that they might be paid their wages in preference to the claims of the execution creditors.

Mr. Jackson, Mr. Pooley, Mr. Pollard and Mr. T. Davie appeared for the creditors.

Mr. Davie considered the act imperative and that the men were entitled to thier wages; but in view of the order made yesterday by Mr. Justice Gray it would be premature to apply the act until the receiver had reported.

Mr. Pooley was prepared to argue that the act was unconstitutional, as being a bankruptcy measure and class legislation, and that hence the workmen had no lien.

His lordship adjourned the case until Monday next.

Woman's Christian Temperance Union.

The first public meeting in this city of the above union was held last night at the Omineca Hall. A large number of both sexes was present. Various mottoes and texts were hung upon the walls, and covering the rear of the platform was a large British Ensign, a little above which was a verse beginning "For God and Home and Native Land. The acting officers are all women, though men are eligible as honorary members. An introductory essay, stating the principles of the union was read by Mrs. Watson. Previous to this the lady president delivered a few remarks, stating the organization was one to which all might be proud to belong, and that everything conducive to its stability here would be done by co-workers in the cause whose presence there that night was the best earnest of their convictions of this much needed method of reform. The Rev. Mr. Watson explained to the audience how thoroughly systematic were the workings of the main body of the union and the success they had met with. One hundred and twenty members are already placed on the roll of the Victoria branch. Songs and music, followed by a few more speeches terminated the meeting.

NEW THRESHING MACHINE.—There arrived from Canada by the Dakota on Tuesday last a threshing machine, called the Sawyer Grain Saver, for Messrs. J. Sluggett and P. Baker, of Saanich. This machine, the first of the kind ever imported into British Columbia, recommends itself by its simplicity and efficiency. Among other advantages that it possesses over the old style of machines is that after a hard day's threshing, scarcely more than a shovelful of grain will be found on the ground below, as it is caught by the projecting floor beneath after it has been separated from the straw. Accompanying the Grain Saver is a stacker, after the shape of a ladder, which is hoisted by a windlass and can be so governed that it will convey the straw in any required direction. The first outlay is the only one in such a labor-saving machine, and it will very quickly repay its original cost.

SPENCE'S BRIDGE ANNUAL RACES.—The Spence's Bridge annual Fall races and games will take place at that locality on Wednesday and Thursday, October 3rd and 4th. All who have horses to enter, or who wish to compete in the games, will find full particulars in the bills which will be duly issued. The Spence's Bridge people generally manage to have a good time on these occasions, and the coming event will doubtless be no exception to the rule.

LARGE FIRE AT SAN FRANCISCO.

Destruction of the Winter Garden and Other Buildings.

SAN FRANCISCO, Aug. 4.—In extent of area the fire this morning is the greatest that has occurred in this city since 1867. Over two-tairds of an entire block are laid in ashes. The discovery was made at one o'clock, and although an alarm was instantly turned in, before the first engine reached the scene it was evident that the fire would be one of the most disastrous and difficult to cope with that the firemen of this city had yet encountered. This was chiefly due to the construction of the building of the Winter Garden theatre, in which the fire broke out. The structure was filled with inflammable material and was covered with asphaltum, and was so wedged in between other old frame buildings, that it was difficult for the firemen to cope with the flames.

A REMARKABLY QUICK FIRE.

No fire has ever before occurred in this city where the flames spread with such fearful rapidity as the fire of this morning. Within fifteen minutes from the time the first alarm was sounded the buildings in the rear and on both sides had caught, creating a heat so intense that no attempt could be made to enter them. A general alarm was sounded, and efforts at once directed to prevent a spread of the flames. Several of the engines were detailed to prevent buildings on the opposite side of the street from catching fire from the sparks carried by the wind. Patrols were organized and ropes stretched across the streets, so as not to impede the firemen.

After the Winter Garden theatre the Eisnhach building was next to go, and then a fight was made to save the Red Men's hall, but it was unsuccessful. Adjoining the latter was the Pacific College, which was quickly enveloped.

CHECKED BY A BRICK BUILDING.

Learning that the firemen directed their efforts to saving the Druids' hall, but beyond a portion of its contents nothing could be saved. When the flames reached this point it looked as though the entire block, bounded by Stockton, Post, Powell and Sutter streets, must go, and in that great conflagration Trinity church and the National Guard armory also, and the other buildings be reduced to cinders; but just here the National Guard building did good service. It being built of brick the flames encountered an obstacle not before met, and the Guard building saved the church. But on the Stockton street side the flames continued to hold full sway, and everything down from the third building on Stockton approaching Sutter, and on Post to the Guard armory was nothing but one seething mass of flames. Within these limits the firemen, by great efforts, managed to keep it, and at 2:45, less than two hours from the first alarm, the fire was under control, but not before, in that short period, it had destroyed nearly one entire block of the city.

FATAL AND SERIOUS ACCIDENTS.

Several accidents occurred, many of them serious. Just as the flames had got full possession of the Red Men's building, a man named John Couptis, fireman on the steamer Oregon, was seen to rush to te the middle window of the second story, which, at that moment, was almost entirely enveloped in flames. Quickly fastening a curtain to the window sill, he jumped out, but the curtain not having been fastened securely, gave way, and he came head first to the ground, and was picked up insensible and carried to the hospital. It was found that his spine was injured to an extent that his recovery was considered doubtful.

No death is known beyond that of Harry Morgan, an actor, who lately played Uncle Tom in "Uncle Tom's Cabin," at the Winter Garden theatre. Morgan had been drinking heavily of late and was seen drunk last night, and it is known that he went to bed in a room in the theatre. There is an idea that it was he who unconsciously started the fire.

The firemen, who behaved most admirably, succeeded in rescuing many persons.

Later estimates of the losses placed them at $200,000; insurance, $70,000.

A POST OFFICE CONVENIENCE.—A very handsome walnut advertising desk, manufactured by Mr. Jacob Sehl, of Government street, has been placed in the Post office by Messrs. Good & Dilhbough. The article is made of solid walnut, and is about 11 feet long, the lower portion consisting of a desk, covered with green leather, of standing height, while the back rises to a considerable height above it, and is ornamented with carving, medallions and open work. It is divided into compartments of different sizes, in which the advertisements, in ornamental lettering on glass, are inserted. The centre portion rises higher than the rest and contains a large and handsome clock, which gives the day of the month, as well as the time of day. The post office has hitherto been without the slightest convenience for even writing a postal card, and the desk, besides serving its own business purpose, will supply this want besides being a handsome article of furniture.

HIS HONOR the Lieutenant-Governor and Mrs. Cornwall will proceed to-day in company with Sir Alexander Campbell to Nanaimo and New Westminster. Their visit will be of an official character, as on Thursday, at Nanaimo, the lieutenant-governor will be prepared to attend to any matters which may be brought to his notice, while in the evening Mrs. Cornwall and his honor will receive such ladies and gentlemen as may choose to present themselves. Saturday will be occupied at New Westminster in the same manner, while the interveining Friday will suffice for the passage between those places and the inspection of Burrard Inlet and Port Moody. On Saturday evening Sir Alexander Campbell starts for Yale, and the lieutenant governor will probably return to Victoria on Monday in the Sir James Douglas.

P. O. H.—The ladies' committee gratefully acknowledge contributions of clothes and various kinds of provisions from the following friends during the month of July: Mesdames Munro, Barnard, Goodacre, A. A. Green and Oppenheimer. Messrs. Harding and Andean, and from the citizens' ball committee.

VAGRANCY.—Yesterday an old Chinaman, named Low Tow, was arrested by Constable Hough on a charge of vagrancy. The charge is somewhat an unusual one for a Chinaman, but Low is said to be an old offender.

PARIS, July 21.—Chalenton, who murdered his wife on account of her connection with the case of Mlle. Fidelia de Monasterio, who was abducted by her brother at the instance of her mother, has been found guilty by the Seine Assizes of assault to do grievous harm, and sentenced to three years' imprisonment.

HOW CAREY GOT OUT OF IRELAND.

The Informer's Difficulties—The Government Paid Him Nothing.

Cork Examiner

Notwithstanding the cunning and cleverness of James Carey, and his violently expressed determination to remain in Ireland, he was at the last moment completely baffled by the action of the authorities and obliged to leave the country without receiving one farthing reward for his services as approver. Not only this, but the lord lieutenant refused to grant him a written pardon, and he took his departure from Dublin a dejected and disappointed man. As it turns out his threats to resume his place in the corporation, and continue his occupation as a bricklayer in Dublin, were but empty boasts, for when the test came he demonstrated that he was glad to procure safety on any terms. He believed that he had got the Government in a difficulty; that they could not keep him in prison, and that they would have to pay handsomely to induce him to go away. But, deep conspirator that he was, he was entirely outwitted, and so unexpectedly that he seemed paralyzed at his helpless position, and suddenly submitted to proceed to a distant land. The manner in which his acquiescence was obtained was very simple. His applications for a written pardon were unheeded; his demands for terms were unanswered; his brother Peter was removed from his company, so that he did not know what had become of him; other informers had left the prison, and he knew not whither they had gone. He began to suspect that something had been done with his family, and the expression in the letter appended—written shortly before he was taken from Kilmainham—shows he was suspicious that they had been, as he termed it, "kidnapped."

Carey's elder children were first sent away; then his wife and the younger members of the family followed, it being intimated that the approver-invincible would meet them at a certain port. Suddenly, at night, it was made known to Carey that he was to leave the prison. He started with amazement and inquired what the government intended to do with him. What, he asked, was to be his reward? What provision had been made for his protection? He was struck dumb with astonishment when informed that he would receive no reward; neither would protection be extended to him, and he could now take his choice—either go to the colony for which his passage had been paid, or the door was open to him to walk out a free man among the citizens. Being assured that it was the the decision of the authorities, his fury seemed to consume him, and when the question was put whether he would take his liberty or his passage for another clime, he got overcome with fear at the prospect of being turned out into the streets. Finally the news was imparted to him that his wife and seven children were already aboard ship ready to sail, and unless he chose to join them, their passage having been paid, he would have but little chance of meeting them for a considerable time. This last blow overwhelmed him, and he sulkily bowed to the inevitable, and consented to rid Ireland of his presence forever. No time was lost in acting upon this decision—for Carey's passage ticket had been secured and his common outfit purchased.

Agricultual.

Ten cubic yards of meadow hay weigh a ton. When the hay is taken out of a stack, eight or nine yards will make a ton. Eleven to twelve cubic yards of clover, when dry, weigh a ton.

In watering horses in cold weather give one pailful at a time three times a day. This is enough unless you are working them regularly; then give a little more, but not to exceed four pailsful a day. In hot weather when they are brought in, sponge out the mouth and nostrils well with cold water. After a few spongings they will wait for it to be done. Then give them not to exceed a pailful apiece, and after feeding give one more pailful before you commence work. Don't let them go without it long enough to make them want more than this. If allowed, a thirsty horse, when warm, will drink too much. A common twelve quart pail is the size referred to above.

One bundle of 16-inch shingles will cover 30 square feet; one bundle of 18-inch shingles will cover 33 square feet, when laid 5½ inches to the weather. Six pounds of 4-penny nails will lay 1,000 split pine shingles.

Measure 209 feet on each side, and you will have a square acre within an inch.

California.

SAN FRANCISCO, Aug. 5.—A young man named Benton, assistant lighthouse keeper at Point Bonita, was found dead yesterday at the foot of a cliff 125 feet high. It is presumed he lost his way and fell over the cliff.

Mary Brown, an insane woman who was sent back to Lafayette, Indiana, from the state asylum, some weeks ago, being considered incurable, died Tuesday night at the county poorhouse, where she had been kept for eight weeks. For the last seven weeks the woman refused food of all kinds, and threats and entreaties were alike unavailing to induce her to take food. Once she took a few sips of milk, but this is all the nourishment that passed her lips for forty-four days.

Thy Will Be Done.

Blow on, fierce tempest, blow!
Pour down thy drenching rain,
Flash thy red lightning's glow,
O'er trembling man and main,—
I, but an humble lily of the field,
Resistless to thy swinging furies yield.
Let without pause or stay
All bonds and fetters burst,
Wild winds and torrents sway.
Wreak on my head their worst!

What though they snap and drown
Blossom and branch and root,
Wither and blast far down
Fair bud and tender shoot,
From my crushed, broken heart may still
rise up,
Like incense from a shivered golden cup,
A last faint breath to Heaven,
Left without star or sun,—
He took what He had given,
Thy will, my God, be done!

—*Stuart Sterne in Century for August.*

English Mail.

(Per Steamer North Pacific.)

LONDON, July 19.—Sir Charles Michael Wolseley, baronet, was married to day in the Cathedral at Kensington, to Miss Anita Theresa Murphy, daughter of Daniel J. Murphy, of San Francisco. The ceremony was performed by Cardinal Manning. Among those present was Mr. Lowell, the United States Minister. The Pope sent his blessing to the newly-wedded pair. Sir Charles Michael Wolseley, of Wolseley, County of Stafford, is the eldest son of the late Sir Charles Wolseley, Bart. He was born in 1846 and succeeded to the Baronetcy in 1854. The family seat is Wolseley Hall, near Rugeley.

About ten years ago a rich London baronet, made a love match with a maid of low degree. After a time the wife became so eccentric that he could not live with her. He accordingly made a bargain that he should pay her £50 a year for every mile of distance between them. It was a rash bargain, as she might by going to the antipodes have mulcted him £600,000 a year. Perhaps there was some limit. At any rate she contented herself with going upon the continent and getting £15,000; then she returned as close to him as she could get, and annoyed him to the utmost of her capacity. When all her money was gone, she went off for a year, to return again with her purse well filled. Moral (addressed to King Cophetua about to marry), don't.

The Colonist Stationery Department.

Having extended our Publishing and Printing departments, and being about to occupy our new and more commodious premises, we have disposed of our large and miscellaneous stock of stationery to Messrs. T. N. HIBBEN & Co. We ask our former customers to accord to Messrs. HIBBEN & Co. a continuance of those favors which have been liberally extended to us in the past. *

NEW ADVERTISEMENTS.

A BYLAW

TO REGULATE THE ERECTION OF WOODEN BUILDINGS WITHIN THE FIRE LIMITS OF THE CITY OF VICTORIA, AND TO PROVIDE FOR THE STORAGE OF INFLAMMABLE AND COMBUSTIBLE ARTICLES.

BE IT ENACTED BY THE MAYOR and Council of the Corporation of the City of Victoria:—

1. It shall be lawful for the Mayor and Council, from time to time when by them deemed necessary, to appoint an Inspector of Buildings, at such salary as the Municipal Council shall think proper.

2. The duties of such Inspector shall be to oversee the erection of all buildings hereafter to be erected, built, enlarged, altered, or re-erected within the City of Victoria, and to enforce the provisions of this Bylaw.

3. To examine, by virtue of his office, or whenever he may be so directed by the Mayor and Council, or by a Police Magistrate, or by any Justice of the Peace of the said City, all chimneys, fireplaces, hearths, ovens, boilers, furnaces, stoves, steampipes, stovepipes, funnels, flues and all places where fires are made or kept, or where ashes are kept; and also to examine all buildings or other premises where gunpowder, coal oil, hay, straw or other inflammable substances are kept, or where any trade which is considered by the Inspector of Buildings dangerous as causing or increasing the liability of fire is carried on, and to report thereon, and if necessary, to notify the owner, lessee, occupier or party using the building of any defect or objection thereto, or to the construction thereof, in any such stovepipe, chimney, fireplace or ashpit, and to direct the repair, alteration or discontinuance thereof as may be considered requisite.

4. If any owner, lessee, occupier or party using a building where any chimney, fire place, hearth, oven, boiler, furnace, stove, steam pipe, funnel, flue or place for keeping ashes, or any other place which is deemed to be dangerous, neglects to discontinue the use of, or to alter, repair, or remove the same in accordance with the notice in that behalf and issued by the inspector of buildings or under the authority of a resolution of the Municipal Council of the said city of Victoria and signed by the said Inspector, or by one of the Fire Wardens, he or they shall be liable to a penalty not exceeding ten dollars a day for each and every day that default shall be made in not complying with the said notice in addition to all other penalties imposed by this By-Law.

5. Until otherwise ordered by the said Municipal Council the City Surveyor shall perform the duties prescribed by this By-Law, to be performed by the Inspector of Buildings.

6. In all cases of building or rebuilding any house, warehouse, or other building when on the line of any public street or within seven feet thereof, there shall be erected by the builder a board fence of not less than six feet in height to enclose not more than half of the width of the sidewalk in front of such building and outside of such fence a planked pathway shall be laid by such builder at least four feet wide, for the convenience of the public, or it shall be lawful for him instead of erecting such fence and pathway to plank over the whole of the scaffold at the height of the first floor above the ground floor of such building, and to enclose such scaffold at the same height at least eighteen inches all round above the level of the planked floor above said, the sidwalks of the street being left free for public use.

7. No person shall place any lumber, stone, chips, shavings, rubbish, or any building material whatever, on any sidewalk, except within the aforesaid fence, and when buildings are being erected on any street no person shall be allowed to occupy more than one-third in width of the roadway with any such building material so as to obstruct the free passage of the water in the drains, gutters or water courses, and no person shall suffer or permit any such building material to remain on the street any longer than is necessary for the erection of the building for which such material is designed; and on the completion of the external walls and roof of any such building, and of such completion the Inspector of buildings shall be sole judge, the contractor or owner thereof shall within three days thereafter entirely remove all materials from the street, and cause the street to be cleaned from all such building material and left in good repair.

CHIMNEY STACKS.

All Chimney Stacks shall be carried to a height of not less than four feet above the walls, Ridge, or Deck of any Roof, except in cases where the Ridge or Deck of any Roof exceed the height of six feet above the base of such Chimney, then the height shall be determined by the said Inspector, and where a Chimney Stack is used to carry away smoke or noxious vapors from any manufactory, the said Stack shall be carried to such a height as to effectually clear the surrounding buildings to the satisfaction of the said Inspector of Buildings. All Stacks shall be built of Stone, Brick or Iron and in the most substantial manner.

BOILERS AND OVENS.

9. No timber shall be laid within two feet of the inside of any Oven, Copper, Still, Boiler or Furnace, nor within nine inches of the opening of any chimney, nor within seven inches of any metal flue, nor within four and a-half inches of any brick flue, unless the wood is properly protected to the satisfaction of the Building Inspector.

STEAM PIPES AND FUNNELS.

No pipe or funnel for conveying steam shall be fixed next any public street or highway or on the front of any buildings, nor shall any funnel, pipe or flue for conveying fire or smoke be fixed on the inside of any building nearer than twelve inches to the face of any timber, nor shall any such funnel, pipe or flue pass through any timber, framing or partition of wood, or wood and lime, or through any wooden floor, in any house, outhouse, fence or building whatever, within the said City, unless there shall be a space of at least six inches clear between the said funnel, pipe or flue and such framing, partition or floor, and the same pass through a chimney of stone or bricks and mortar, or be encased by a rim of solid stone or thick metal not less than three inches wide and equal in thickness to the full finished thickness of the framing through which such pipes shall pass.

11. No occupant of any house or building within the said City shall permit any pipe-hole not in use in any chimney in such house or building to remain open; all such holes shall be closed with a proper stopper of metal or other incombustible material.

12. No person shall place or keep any ashes in any wooden box, or within three feet of any wooden floor or partition, or in any outhouse or shed, unless properly protected; and no person shall store or permit to be stored any combustible material in any yard within one hundred feet of any building unless the same is properly covered and protected from fire, and of the sufficiency of such protection the Inspector of Buildings shall be sole judge.

13. No person shall set up, erect, or construct, or build, or use, work, or cause or procure to be set up, erected, constructed, built or worked, any steam engine except under the terms of this bylaw.

14. No person shall establish, set up, carry on or continue within the said City any tannery, fellmongery or place for boiling soap, making or running candles, or for the melting of tallow, or any manufacture of varnish, fireworks, or any coal oil refinery, or any other factory which from its nature or the material used therein shall be dangerous, in causing or promoting fires, unless and until he shall have obtained a certificate of compliance with the general regulations hereby prescribed or to be prescribed by any bylaw of the Corporation.

INFLAMMABLE SUBSTANCES.

15 No larger quantity than 80 gallons of coal oil or any oils of a similar character in wooden casks, nor more than 300 gallons if in tin, metal, stone or earthenware, nor a larger quantity than 20 gallons of crude oil, burning fluid, naptha, benzole, benzine or other similar combustible and dangerous material shall be kept in any wooden building within the city limits, nor a larger quantity than 150 gallons of coal oil, or other such oils in wooden casks, or 750 gallons in tin, metal, stone or earthenware, nor any larger quantity than 80 gallons of crude oil, burning fluid, naptha, benzole, benzine or other similar combustible or dangerous material shall be kept in any brick building within the city limits unless the same shall be kept in a cellar properly ventilated and without a floor or one of brick, stone, cement, or other incombustible material, then 300 gallons of coal oil or other such oils in wooden casks or 1000 gallons if in tin, stone or earthenware may be kept, nor shall any of the fluids before mentioned be permitted to flow into any drain or sewer of the said city.

16. Notwithstanding any thing in the preceding section contained, when fire proof buildings are so constructed as to insure at all times a thorough ventilation thereof and are used exclusively for the purpose of keeping or storing coal oil, burning fluid, crude oil, naptha, benzola or other similar combustible or dangerous materials are isolated or detached at least two hundred feet from all other buildings, then any of the said fluids may be kept and stored therein without limit as to quantity.

17. No fire shall be taken into lighted or used within the said last mentioned storage buildings either for heat, light or any other purpose whatever.

18. Every person desiring to keep or store in the manner provided by the 16th section of this By-Law any of the fluids mentioned in the said 16th section, shall make a written application to the Mayor and Council for permission so to do, and shall state in such application the store, house, shop, building or place in which he desires to keep or store the said fluids, or any of them, and it shall be the duty of the said inspector to examine the premises of the applicant and to report to the said Mayor and Council thereon, and upon every such report the said Mayor or Council shall either grant or refuse permission.

19. When any building or buildings within the city limits shall be deemed by the City Inspector to be unsafe from any cause, the owner, lessee, contractor or agent shall be notified at once to make the same safe and secure, and every person so notified who fails within twenty-four hours (or such time as shall be expressed in the notice) to comply with such notice, shall be subject to all the penalties of this By-Law

FIRE LIMITS.

20. The Mayor and Council may from time to time by resolution vary the existing Fire Limits

21. No building shall be erected or placed on old or new foundations or on foundations partly old and partly new within the fire limits unless the same shall be built with main walls of concrete, stone, brick, iron or other suitable materials and the external walls of any brick building must be of not less than the following dimensions:

ONE-STORY BUILDINGS.

Outside walls shall not be less than one brick or 8½ inches thick, or more than 14 feet in height, or more than 50 feet in length unless strengthened by cross partitions or other means approved by the Inspector of buildings.

One and a half brick or 12½ inch thick walls shall not exceed 16 feet in height nor 70 feet in length unless strengthened by cross partitions or other means approved by the Inspector of buildings.

TWO STORY BUILDINGS.

Outside walls, ground floor wall, to be not less than one and a half brick or 12½ inches thick, and not to exceed 16 feet in height or 70 feet in length without being strengthened by cross walls, partitions or other means approved of by the said Inspector.

Outside walls, first floor, to be not less than one brick or 8½ inches thick, nor more than 14 feet in height nor more than 50 feet in length unless strengthened as aforesaid.

THREE-STORY BUILDINGS.

Ground floor outside walls shall not be less than two bricks or 17½ inches thick, nor more than 17 feet in height nor more than 100 feet in length, unless strengthened as before mentioned.

First floor outside walls shall not be less than one and a half brick, or 12½ inches thick, nor more than 14 feet in height, nor more than 50 feet in length, unless strengthened as aforesaid.

Second floor outside walls shall not be less than one brick or 8½ inches thick nor more than 12 feet in height nor more than 50 feet in length, unless strengthened as before mentioned. And for every additional 20 feet length or 2 feet in height, or any fraction thereof added to any of the above measurements one half brick, or 4½ inches in thickness, must be added to the thickness of walls of each and every story; and the brick or stone work of any and every building must be carried to such height as may be requisite to effectually protect the woodwork of roof of such building from any adjoining building, and to the satisfaction of the City Inspector of buildings.

Basement walls are to be not less than 4½ inches thicker than the walls under which they are built, and shall be of either stone, brick or other suitable marials, and for every four feet in height over 10 feet or 20 feet in length over 70 feet, or any part thereof, then the walls must be increased in thickness 4½ inches.

Foundations to Brick or Stone Buildinfis not having Basements are to be not less than 18 inches in the solid ground below the floor level, and to be not less than 4½ inches thicker than the walls under which they are built, and are to be of Brick, Stone or other suitable material.

ROOF COVERINGS.

Roof coverings shall be of slate, tin, iron or other incombustible materials.

PUBLIC BUILDINGS.

22. All Doors in Theatres, Music Halls, Hotels, Churches and other buildings used for the assembly of large bodies of persons, must open outwards, and ample provision be made for the rapid emptyings of the said buildings.

23. No wooden buildings within the said fire limits shall be removed, except to a portion of the same lot on which it stands, or to a point outside of fire limits, and then only with the written permission of the Mayor and Council and subject to such conditions and stipulations as may be thought advisable, and no wooden building within the said limit shall be altered or changed without the written permission of the Inspector of buildings approved by a majority of Fire Wardens, which permit shall specify fully the alterations required, and no such permit shall be given if any increase will be made by the proposed change or alteration in the size of the wooden building within the said limits, or if such repairs increase the value of such building more than twenty-five per cent. the application therefore and a copy of each of such permits shall be kept in the office of the City Clerk.

PARTY WALLS, ARCHES, CHIMNEYS.

24. All party walls shall be built between house and house, except in such parts where each house has independent walls. Party walls not being of sufficient thickness shall be taken down when one or more of the adjoining houses requires to be rebuilt. External walls shall not become party walls unless the same shall have been previously erected in accordance with the provisions of the By-Law. The brickwork in all party walls and external walls shall be properly bonded, or anchored in every case.

25. No timber shall at any time hereafter be laid into any party wall or arch, except for bond to the same, nor into any party wall other than such templets, chains and bond-timbers as shall be necessary for the same, and other than the ends of girders, beams, binding or bruming joists, or other principal timbers; all of which timbers shall have at least four inches and a-half of solid brickwork between the ends and sides thereof, and the timber of any building adjoining thereto, and the ends of every girder, beam, purline, binding or trimming joists, and every piece of principal timber may be laid beyond the centre of any party wall, providing that there be left four inches and a-half of solid brick or stonework at the end of every such piece of timber, except in places where any parts of the ends of any such timber shall be opposite to and level with any part of the ends of any timber of any adjoining building, in which case no part of such timber shall approach nearer than two inches to the centre of the said party wall.

BREAST SUMMERS.

26. Breast-summers in all cases shall be carried on brick or stone walls, or piers, or on cast iron columns seated on stone, and shall in no case be carried on story posts or other timber supports; and when the ends of any breast-summers shall approach the centre line of any party wall nearer than four inches and a-half, such ends shall be encased and entirely surrounded in cast iron shoes.

CHIMNEYS AND HEARTHS.

27. All Chimneys back to back on party walls shall be in the chimney backs at the least one brick or 8½ inches in thickness. Chimney backs in party walls not being back to back with any other chimney shall be at least 8½ inches clear from the party line; the thickness above specified to be continued to a height of at least 8 inches above the mantel in every case All flues built in internal, external or party walls shall be surrounded by brickwork not less than 4 inches in thickness.

28. Chimney Hearths shall in all cases be laid wholly on brick or stone in cement, unless the same be in a cellar or basement story and be laid and bedded in solid earth, and every chimney shall have a slab or slabs or foot pieces before the same of stone, bricks, marble, iron or cement at least one foot four inches broad and extending at least six inches beyond each end of every fireplace opening.

29. Hay or Straw shall not be permitted to be stored or kept for sale in buildings within the city limits unless the same shall be properly secured from danger by fire to the satisfaction of the Inspector of Buildings and the Fire Wardens, and if any building used for the storage of hay or straw shall be deemed dangerous by the said Inspector or Fire Wardens the parties using the same shall be notified to discontinue the use thereof or to have said buildings made secure, and for every day so using the said buildings, or permitting them to be used after the expiration of such notice, they shall be liable for the full penalty mentioned in this Bylaw.

30. The line of wall of any building fronting on any street, alley, lane or public highway within the limits of the City of Victoria, shall be parallel with the centre line of such street, alley, lane or public highway as laid down on the official map of the said city, and no building, or part of any building shall project or encroach on any such street, alley, lane or public highway.

31. The penalty for the breach of any section of this bylaw shall be the same as is mentioned in the Municipality Act, 1881.

32. All bylaws and parts of bylaws conflicting with this bylaw shall be, and the same are hereby repealed.

33. This bylaw shall be cited as the "Victoria Building Bylaw, 1883." Passed the Council this 29th day of June, A.D., 1883.

Reconsidered and finally passed this Eleventh day of July, A.D., 1883.

CHAS. E. REDFERN,

{Seal} Mayor.

WM. LEIGH, C. M. C. j30

NOTICES TO CLAIMANTS OF LAND.

WELLINGTON DISTRICT.

NOTICE IS HEREBY GIVEN, THAT Section 12, Wellington District, has been surveyed for Mr. W. O. Lockhart as the land claimed by him under Pre-emption Record No. 1427, dated July 9th, 1873, upon which a Certificate of Improvement was issued March 8th, 1877.

A plan of the above mentioned section can be seen at the Lands and Works Office, Victoria, and at the office of M. Bray, Esq., Commissioner, Nanaimo, where forms of proof and declaration can be obtained.

The above or any other claimant to this land must prove up their claim within three moths from date of this notice.

WM. SMITHE,

Chief Commissioner of Lands & Works.
